The World's Voice on Career Issues

We are pleased to announce our Partnership with **ExecuNet**, the leading Internet-based center for executive career management.

In July of 2004, we offered a webinar to our members titled, **"The Executive Job Market Intelligence Report for 2004."** This webinar sold out almost immediately and was a major success.

From this positive experience, we began discussions with **ExecuNet** about other ways we may best collaborate to form a mutually beneficial partnership. **ExecuNet** is pleased to have this opportunity to partner with ACP International in an effort to provide strong content and resources to our members. This partnership will undoubtedly be a great success for our association.

We are in the process of finalizing the many different ways we plan to enhance your member value through this alliance. You can expect to receive additional information on this partnership in the upcoming weeks. One way we will be working with **ExecuNet** is to develop more content and exposure beyond North America.

We hope you will share in our enthusiasm for such an exciting step forward. These are the types of relationships that will help ACP International develop and prosper for years to come. To learn more about ExecuNet, visit their website by clicking here: [ExecuNet](http://www.ExecuNet.com).
